

**CAUTION: KEEP OUT OF REACH OF CHILDREN**

If swallowed, induce vomiting. Drink milk and call a physician.

Should contact with eyes occur, flush with water.

**Net Contents: 1 Gallon**

**CRYSTAL CLEAR** is a professional, uniquely formulated concentrate with a powerful combination of cleaning and degreasing agents not found in other glass and surface cleaners. It cuts through tough grease and grime, leaving no cloudy residue and windows stay cleaner longer. This product outperforms other cleaners available.

**CRYSTAL CLEAR** is environmentally friendly. Super-concentrated bottle means less packaging waste. This concentrated product saves you storage costs, shipping costs, packaging costs and all you pay for is the special ingredients of the product, *not* the water that you can add to this concentrate on the job.

**CRYSTAL CLEAR** stays wet longer, which is great for dry, hot or windy days. Has superb wetting coverage with almost no running or bleeding of product and greatly reduces wipe-up. Will not harm glass, plastic or metals and leaves these surfaces shining. Works great on cleaning bird, insect, and grime matter on most surfaces. Extends the life of squeegee rubber and tips. Easy squeegee-glide formula helps prevent scratches or damages to surfaces while cleaning. Rinses easily, sometimes may just hose off surface and let air dry without using a squeegee with great results. A pleasant smelling, economical, high quality formula. Great for many uses.

**Windows, Glass:** Spray on windows or glass. Use 1 Tsp /Qt or 4 Tsp/Gal.

**Squeegee Window Cleaning:** Use 1/2 Oz./Gal., or 2 1/2 Oz./5Gal.

**Hard Surface Cleaning:** Stainless steel, aluminum, chrome, vinyl, marble & slate. May be used on floors. Use 3 Oz. /Qt., 12 Oz./Gal., or 1 Part/10 Parts.

**Exterior Building Cleaning:** Dilute to use in a pressure washer or other cleaning like equipment. Cleans roofs, store fronts, exterior walls. Soak cleaning of metal parts. Use 3 Oz. /Qt., 12 Oz./Gal., or 1 Part/10 Parts.

INGREDIENTS: Sulfonic Acid CAS#68584-22-5, Potassium Hydroxide CAS#1310-58-3, Sodium Silicate CAS#6834-92-0, Glycol Ether CAS#111-76-2, Amine CAS#141-43-5
