Dust Mop Treatment

Makes

Dry Mops & Dust Cloths

Dust Retentive

**CAUTION
KEEP OUT OF REACH OF CHILDREN**

COMBUSTIBLE. CONTAINS PETROLEUM DISTILLATES.
HARMFUL IF SWALLOWED. IF SWALLOWED DO NOT
INDUCE VOMITING. CALL A PHYSICIAN IMMEDIATELY.

Keep away from heat, sparks and open flame.

Keep container tightly closed in storage.

FOR INDUSTRIAL & INSTITUTIONAL USE ONLY

DIRECTIONS

INITIAL MOP OR MITT TREATMENT- Spread yarn broom out flat. For each 9 inch length of mop sprinkle or pour 2 ounces of this product evenly across mop saddle. For mitt pour 2 ounces into pocket soaking the canvas liner. Fold or roll into a ball and place in a plastic bag or covered container overnight. This will allow mop to "cure" by capillary penetration.

RETREATING- ALWAYS shake mops out or "comb" them with a stick before retreating. Your treated mop should be fortified every night after use. Lightly spray the face and saddle with this product. Hang the mop up, off the floor, for at least 6 to 8 hours before using. A properly treated mop should feel dry to the touch.

DUST CLOTH TREATMENT- Spread cloth flat on newspaper. Spray product from corner to corner in an "X" design. Roll cloth up and place in a covered container for 24 hours before using.

IN CASE OF EYE CONTACT- Flush eyes with large amounts of water. If irritation persists call a physician.

INGREDIENTS: Petroleum Hydrocarbon CAS #64741-44-2
