

Hammerhead

Concrete Stripper

- *Non-Corrosive*
- *Safe for Glass and Chrome*
- *Non-Fuming*
- *One Step Process*
- *Safe On Skin*

NET CONTENTS: 5 Gallons

A non-DOT regulated, biodegradable product that is non-fuming, non-corrosive, safe on glass and metals. This synthetic acid dissolves nearly 15% more concrete than Hydrochloric acid but is much safer to use! Because this product contains no acid and is non-corrosive, you can apply it to any kind of equipment. It is so safe it can even be left on overnight to loosen the heaviest buildup. Ideal for cleaning forms, pavers, portable mixers, swimming pools, tools, windows, anywhere you find cement, gunite or mortar. Any cleaning that once required the use of dangerous, toxic acids, can now be safely done with this product. And because it is 100% synthetic, no neutralizing step is required. Simply rinse with water. It is safe for use on paint, chrome, aluminum, plastic and even glass.

DIRECTIONS:

Light to moderate everyday buildup: Dilute 1 part product to 10 parts water

Moderate to heavy buildup: Dilute 1 part product to 5 parts water

Heavy to Extra Heavy buildup: Dilute 1 part product to 2 parts water

Severe buildup: Use product straight from bucket. DO NOT DILUTE!

INGREDIENTS: Water - CAS# 7732-18-5, Organic Salt - CAS# N/A, Non-ionic Surfactant - CAS# N/A, Amphoteric Surfactant - CAS# N/A, Anti-staining Solution - CAS# N/A.
