

HIGH POWER

ALL PURPOSE SOLVENT DEGREASER CONCENTRATE

CAUTION
KEEP OUT OF REACH OF CHILDREN

5 GALLONS

HIGH POWER

An all-purpose solvent degreaser concentrate that cuts oil and grease from shop and service areas, machinery, material handling equipment, engine parts, as well as concrete floors and ramps. It is especially useful where safety solvents can't be used because it has the cleaning power of solvents plus the convenience, safety and economy of water-based detergents.

DIRECTIONS

Spray or mop emulsion degreaser over the surface to be cleaned. If build-up is heavy, scrub with wire brush until dirt is removed. Allow solution to sit on surface for 10-15 minutes. Flush off solution with water. This product may be used as a presoak prior to rinsing with water. Always scrape off heavy accumulations of grease prior to applying this product. This product is safe on all ferrous metals. Will attack softer metals, extreme caution is urged.

FLUSH SKIN IF CONTACT IS MADE.

INGREDIENTS: Aromatic hydrocarbon CAS #64742-96-6, Pine Oil CAS #8002-09-3
