

This lotion soap, made from the mildest synthetic detergents, makes soap-type hand cleaners obsolete. Pleasantly perfumed, it quickly removes dirt and grease and leaves the skin soft. While soap-type hand cleaners always have a PH of 10.0 or greater, this hand cleaner maintains a **PH of 7.0**, much more compatible with the natural PH of the skin. This product makes washing a pleasure. It is particularly suited for the removal of industrial irritants such as **chemicals, solvents, oils, greases, and salts**. Great for use in factories, hospitals, nursing homes and offices. Economical, its high concentration goes a long way. Use on face and hair or in shower. Also available in **flat top reservoir containers**. It may be dispensed through conventional dispensers or any other dispensers.

**CAUTION**  
**KEEP OUT OF REACH OF CHILDREN**

INGREDIENTS: Tea Lauryl Sulfate CAS#68908-44-1, Alkanolamide CAS#61789-19-3, Cocoamidopropyl Betaine CAS#61786-40-0, Water CAS#7732-18-5, Sodium Chloride CAS#7647-14-5

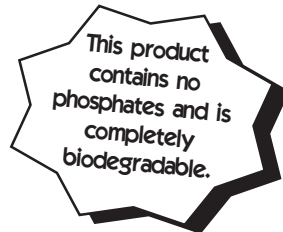

**ONE GALLON**

**Leaves hands  
and skin  
clean and soft!**

**FOR INDUSTRIAL AND  
INSTITUTIONAL USE ONLY**

**DIRECTIONS**

Wet hands. Apply few drops of lotion soap. Work into skin to produce a rich lather. Rinse and dry. For heavy soil, rub few drops of lotion into skin to loosen and liquify soil. Wipe with towel or rinse and dry. Can be used with or without water. For showers, wet body, apply lotion. Rinse and dry.
