

MULTI-PURPOSE, WATER SOLUBLE
MALODOR COUNTERACTANT

CAUTION
KEEP OUT OF REACH OF CHILDREN

MAY BE IRRITATING TO EYES

A liquid, multi-purpose, water-soluble product that employs the latest technological concepts in the control of malodors. It effectively counteracts and counsels a broad spectrum of disagreeable odors without employing or leaving an overpowering cover-up (masking) perfume. It is entirely different from current mask-type products which eventually allow the malodor to reappear when the perfume has dissipated. The malodor counteraction properties of this product are unusual in that even after the initial fragrance of this product is gone, it continues to counteract the malodor's reappearance. Available in many scents. MALODORS TRULY DISAPPEAR.

A partial list of malodors against which this product is effective is as follows:

- **Smoke and Fire-burn Odors**
- **Body Odors**
- **Urine and Fecal Odors**
- **Animal Odors**
- **Cooking Odors (e.g. garlic, onions, etc.)**
- **Mildew Odors and more...**

Consideration of the above partial list should suggest some of the many used areas for the new concept of malodor control.

Nursing Homes, Restaurants, Hospitals, Veterinary & Zoo Establishments, Hotels & Motels, Meeting Rooms, Fire Damage Reclamation Operations, Bathrooms, Kitchens, Schools & Theaters.

USE DIRECTIONS: General purpose cleaning of floors, walls, garbage cans, toilets, sinks, shower stalls, drains, etc. Add 1 or 2 ounces of this product per gallon of diluted cleaner.

DAMP MOP CLEANING- Add 1 to 2 ounces per gallon of water.

CARPET CLEANING- Add 1 to 2 ounces per gallon of diluted shampoo in either rotary-type or water extraction cleaning equipment.

ROOMS and SPACER- Dilute 1 part of this product to 10 parts of water and use as fine mist spray, or pour a small amount of the concentrate into a dish or a pan, and allow to evaporate into the room.

RV and MARINE HOLDING TANKS- Add 1 ounce per gallon of holding tank capacity.

NOTE: Until specific experience is gained with a particular malodor situation, it is recommended that where 1 or 2 ounces is the use recommendations, that the 2 ounces level be tried at the outset.

CAUTION:

Contains Isopropyl Alcohol

CAUTION: Do not spray directly into eyes. In case of eye contact, flush with water for 15 minutes. Get medical attention if required. Avoid contamination of food.

IMPORTANT

Use only as directed. Do not mix with anything unless recommended since harmful conditions and poor performance could result. All floors are slippery when wet. To prevent falls, exercise care when working and block off traffic with "DANGER" signs until the polish or floor is completely dry.

KEEP FROM FREEZING
