FOOD SERVICE FORMULA

REMOVES GREASE AND SOAPY RESIDUES
PENETRATES INTO PORES
HELPS PREVENT SLIPPING

WARNING
KEEP OUT OF REACH OF CHILDREN

5 GALLONS

This product removes slippery grease and soapy build-up from quarry tile and concrete floors. It deep cleans by penetrating and reopening the pores of the floor. When used properly, this product can help prevent slipping while promoting cleanliness in the kitchen, meat rooms delis and anywhere greasy floors may be a problem. Can be used alone or as part of a program, straight or diluted, on quarry tile, concrete, glazed tile and vinyl floors. DO NOT let product stand on polished marble, wood, aluminum, nylon carpet, or painted surfaces. When uncertain about use on a specific surface, test in a small inconspicuous area before use to ensure compatibility with the surface.

DIRECTIONS

READ ENTIRE LABEL BEFORE USING. REMOVE FOOD AND EQUIPMENT FROM THE AREA BEFORE CLEANING.

A. DAILY MAINTENANCE

- 1.) Make use solution in bucket at 4 ounces concentrate per gallon of hot or cold water (1/2 quart to 4 gallons of water).
- 2.) Pour solution directly onto floor from bucket and spread over entire floor with mop or deck brush (alternatively use solution can be applied with a standard one gallon foaming applicator). Allow to stand 5 minutes and agitate with standard deck brush.
- 3.) Remove solution with squeegee or wet-vac.

B. RESTORATION OF GREASY FLOORS

Wet floor with 4 ounces per gallon solution. Apply product full strength directly and follow directions for daily maintenance above.
