

**Labor Saving**

# SPECTRA

## Sealer / Finish

- Superior Leveling Characteristics
- Advanced Wear and Durability
- Achieves Maximum Wet-look gloss with fewer coats

### CAUTION

Keep Out of Reach of Children

Net Contents: 1 gallon

A dazzling achievement in floor care technology, this premier floor finish offers the highest immediate "wet-look" gloss while still maintaining outstanding leveling characteristics and superior high traffic wear. An excellent choice for use in supermarkets, schools, hospitals and office complexes. With a high speed burnishing program, this product produces a deep wet look gloss and requires a minimum of restorative maintenance, labor and money.

### Directions for use:

**Floor Preparation:** Strip floors of old finish, paying attention to baseboards, corners, under furniture and build-up areas. Rinse thoroughly with a floor neutralizer and cold water to completely remove all floor stripper residue.

**Application:** Using a clean mop or finish applicator, apply a thin uniform coat of sealer/finish. Allow to dry for a minimum of 30-45 minutes after each coat. Do not use air movers to speed up the drying time as this will not allow the product to level correctly. Apply 3-5 coats. Floors should be thoroughly dry before traffic is allowed in area.

**High Speed Buffing and Burnishing:** An ideal product for use with high speed polishing of 1000 rpm or higher. Prior to high speed polishing, the floor surface should be dust mopped. Use an approved mop-on or spray buff restorer when surface is worn.

**Maintenance:** Maintain by cleaning with a dustmop to remove surface dirt daily. Damp mop or clean with an auto-scrubber as required using an approved neutral cleaner at the specified dilution. Worn areas or entire floor may be recoated as required to maintain a uniform high gloss. When stripping becomes necessary, use an approved stripper for detergent resistant finishes.

Ingredients: Water CAS#7732-18-5, Acrylic Copolymer CAS#62180-77-2, Glycol Ether CAS#111-90-0, Dibutyl Phthlate CAS#84-74-2
