SUPER CSC should be an integral part of any carpet maintenance system. Routine application will not only clean the carpets, but sanitize and deodorize for a cleaner, longer lasting carpet. **SUPER CSC** is a low foaming carpet shampoo formulated for use with extraction and carpet steam cleaning equipment. **SUPER CSC** contains "twin chain" quaternary ammonium compounds to reduce and control the growth of odor causing bacteria. **SUPER CSC** is fortified with odor counteractants to neutralize malodors. Optimized for use on commercial washable synthetic fibers, but not recommended for use on wool carpets. **SUPER CSC** effectively and economically lifts and removes greasy soil, resists resoiling, and utilizes "built-in" defoamers for more productive use.
